Serial No.:10/827499 PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Dr. Heinrich Friederich Examiner: Reese, David

Serial No.: 10/827499 Group Art Unit: 3677

Filed: April 19, 2004 Docket No.: 00635.0371-US-01

Title: Screw Element With A Spring Element Formed Thereon

37 CFR 1.103 Suspension

Mail Stop Amendment Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

Applicant respectfully requests a Suspension of Action of the present status of the above-referenced application.

Applicant would like a period of suspension of *six* (6) months since Applicant's attorney and possibly the inventor wish to conduct an in person interview of the case and are not located in the United States. To allow the parties and the examiner (who may be off site) to find an available time to meet requires suspension of examination. A further office action may be avoided by such an interview.

Respectfully submitted,
